Budget Billing

Are you having a difficult time budgeting for your monthly electric bills? Home heating and cooling use the most energy and take the biggest bite out of your energy budget. If you would like to take control of your budget, Budget Billing is the answer for you.

How Does It Work?

To determine what your budget billing amount will be, LYREC takes the simple average of your current and last 11 months bills each month. Therefore, if you sign up for Budget Billing, your bill will <u>NOT</u> be the exact same amount every month. There will be variations each month, but the change will not be as drastic as month to month billing.

Who Will Qualify?

This service is available to all residential members who are current, have and "A" credit rating, and have established a 12-month history with LYREC. The member can remain on Budget Billing as long as their account(s) remains current. If you have any questions, contact LYREC's office.

How Do I get Signed Up?

Complete the attached application form and return it to our office between April and August with your payment.
