

Rate Class 9
Net Metering Rate 10 kW or Less

Availability

Available to members of the Cooperative for net-metered residential, small commercial, farm and ranch services subject to its established rules and regulations. Service on this schedule is limited to single phase consumers requiring not more than 10 KVA of installed transformer capacity.

Type of Service

Single phase at available secondary voltages.

Facility Charge

The minimum monthly facility charge under the above rate shall be \$20.00 or greater for all members per established rules and line extension policies.

Energy Charge

All kWh @ 7.1¢. True up of kWh will occur annually. Any kWh generated above self-use will be zeroed at the December billing period.

Cost of Purchased Power Adjustment

If at any time after January 1, 2017 the wholesale cost of purchased power is increased or decreased, the seller may increase or decrease the selling cost .1 mill for every .1 mill, or major fraction thereof, the cost of purchased power is increased or decreased.

Capacity Minimum Charge

For members requiring more than 20 kVA of transformer capacity, the capacity minimum monthly charge shall be \$1.00 for each additional kVA or fraction thereof required. Payment of capacity minimum charge shall entitle the member in all cases to the use of the number of kilowatt hours corresponding to the capacity minimum charge in accordance with the foregoing rate.

The above and foregoing schedule of rates is hereby identified as the modification for Net Metering in the Schedule of Rates presented to and adopted by the Board of Trustees of LOWER YELLOWSTONE RURAL ELECTRIC COOPERATIVE at a meeting held September 20, 2016 with the new rates to be effective with the January 2017 billing.

Effective January 1, 2017
