## POLICY BULLETIN NO. 105

### SUBJECT:

Energy Management

### OBJECTIVE:

To establish policy concerning use of energy by the cooperative and its members, particularly in regard to effectiveness, efficiency, and conservation of energy. This objective is consistent with the utility responsibilities of a full-service cooperative and its prime concern for members' needs.

### POLICY:

It shall be the policy of LYREC to:

- A. Regularly examine its own use of energy. This includes, but is not limited to, plant engineering design and construction, lighting and climate control and use of vehicles.
- B. Develop and carry out a system-wide program of energy management including energy conservation, adequate home insulation, weatherization, efficient irrigation and other farm and business uses, and effective and efficient use of energy in the home. Alternate energy sources will be appropriately considered.
- C. Develop and carry out an information program so that the need for energy management is understood along with understanding of what each consumer can do to meet energy use needs most effectively.
- D. Develop and carry out an information and education program with major groups involved in housing, including the building industry and local government organizations, to assure understanding and coordination in methods of energy management.
- E. Develop training as appropriate for all employees.
- F. Develop an adequate program to promote the weatherization of members' homes.

### RESPONSIBILITY:

It shall be the responsibility of the Manager to develop work plans and budget recommendations to carry out this policy and to develop appropriate control reports to assess results.
